### DETAILED ACTION

1. Amendment and response filed by applicants in Paper no.8, dated June 12, 2003 have been entered and considered carefully.

2. The rejections of claim 1 under 35 USC 112 second and first paragraph is maintained for reason of record.

The newly amended claim 1 together with applicants argument further confuses the scope of the claim and what was enabled and support by the specification.

As it was clearly delineated it is unclear as to “what” is the product being made? Is it the compound of formula I, please note that formula I is only one diastereomer. Or is it any one of the “other” diastereomer of 1-(4-hydroxy-phenyl)-2-(4-hydroxy-4-phenyl-piperidin-1yl)-1-propanol? Does diastereomeric separation allowed in the process? Please note that claim 1 has no limitation as to other steps of diastereomer separation is excluded since only starting material, final product and catalyst are limited yet the term “comprising” allows incorporation of diastereomeric separation such as using tartaric acid to obtain *a specific enantiomer*.

Further, the claim is confusing as to how many starting material was employed? Only formula II or mixture of formula II and other enantiomer or formula II *or* the other enantiomer one at a time?

3. The objection of claims 2-18 and allowability of claims 19-20 of the previous office action are maintained.
